**Habitat Restoration**

**Engineering With Nature**

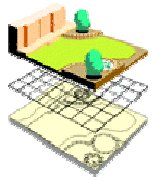

The elimination of active streambank erosion and associated natural habitat degradation are the goals of the **Lower Blackledge River Habitat Restoration Project**.

The project will include the evaluation, assessment and preparation of construction plans for the restoration of approximately 710 feet of the Lower Blackledge River in **Colchester, Conn.**

We are excited to be providing topographic surveys, river cross sections, hydraulic analysis and modeling for this beautiful section of the Blackledge River.

## We Provide the "Complete Package"...

From feasibility studies, through survey, design, permitting, construction and certifications, we are ready to guide your project to success!

Call us to see how we can assist you on your next project. (860) 643-2520

- ◆ Richard Meehan, LLS
- ◆ Marc Goodin, PE
- ◆ E. Russell Johnston III, PE
- ◆ Robert E. Dahn, LLS
- ◆ Vernon S. Reed, Jr., LLS

## How Can We Help You Today?

- Site Planning
- Civil Engineering
- Land Surveying
- Permitting

## On The Web...

To learn more about our firm, visit us at our Website  
[www.meehangoodin.com](http://www.meehangoodin.com)

## Do you have a zoning question?

Call us with your zoning questions. We maintain up-to-date files for many Connecticut towns and cities and a CD-ROM based system for retrieving specific data. We'd be glad to help!

## Repairs and Renovations...

The design of repairs are underway on two small dams that form **Lake Wackawanna**, a seven acre lake nestled in a residential neighborhood in **Danbury, Conn.** Shown above is our survey crew obtaining lake bottom elevations. This work is a joint project of the **Juniper Ridge Taxing District** and the **Conn. Department of Environmental Protection.**

## For Sale...

Twenty two of the 36 homes have already been sold in the **Springbrook Estates** subdivision, **Wetherall Street, Manchester, Conn.** Meehan & Goodin provided the surveying and subdivision design for this 15 acre parcel. Steep slopes, wetlands and utility challenges were overcome to realize this new residential community.

## Phase III...

**Stonegate Manor, Windham, Conn.,** Phase III has been approved and is currently under construction. This phase will consist of 104 new home sites, associated roads and utilities. Meehan & Goodin provided the land surveying and site planning and will monitor the construction.

## Under Construction...

**Manchester Memorial Hospital/ECHN** will soon have access to a Medical PET (Positron Emissions Tomography) Advance Mobile System Unit. This unit will provide their diagnostic staff with the next generation of x-ray/scan imaging technology. Meehan & Goodin provided the site surveying and engineering.
