

The Circus is in Town...

Cirque du Soleil has been fascinating audiences around the world since their inception. This year they have come to Hartford with **Dralion**, a fusion of ancient Chinese circus and the avant-garde approach of Cirque du Soleil. Meehan & Goodin is proud to be providing survey and layout services for the big top facilities.

After Hours...
Hail to the Champions!

The **Meehan & Goodin** sponsored golf team captured first place honors in the Connecticut Association of Land Surveyors annual Spring Golf Tournament on June 11th at the **Blackledge Country Club** in Hebron. In a break from tradition and in spite of our wet spring weather, they teed off on a cloudy, but dry day. Pictured above are: Phil Silva, Scott Hollister, Ken Buchanan and Bob Dahn.

Summer 2003 Newsletter

ON THE FAST TRACK

Ford Motor Company is celebrating their 100th year anniversary. In an effort to improve customer service, they will build 21 new regional specialized parts distribution centers, known as High Velocity Cube Warehouses. **Ryan Companies US, Inc.** was chosen to develop and build a center in **Windsor Locks**. We began design in May and received Planning and Zoning approval on June 9th. Construction is slated to begin this summer with a scheduled completion in January of 2004.

How Can We Help You Today?

- Site Planning
- Civil Engineering
- Land Surveying
- Permitting

- ◆ Richard Meehan, PLS
- ◆ Marc Goodin, PE
- ◆ E. Russell Johnston III, PE
- ◆ Robert E. Dahn, PLS
- ◆ Vernon S. Reed, Jr., PLS

Land Use Development Seminars...

We offer free seminars on land use evaluation, development and planning, as well as on the latest survey standards and codes.

Call Richard Meehan for more information about how to set up a seminar for your group at your location.

Site Improvements For Mobile Seniors...

When the **Enfield Manor Elderly Housing Complex** was constructed in the early 1960's, efficiency apartments were the norm, and most residents neither owned or maintained their own automobiles. That is no longer the case. Twenty-first century seniors now want their own cars and require safe and convenient parking.

Meehan & Goodin has been working with **Capital Studio Architects** of **East Hartford** to design additional parking spaces. The completed project will include enhancements to the individual units as well as improvements to the general residential areas.

Parking Improvement Plans...

Meehan & Goodin has been preparing surveys and site engineering designs on behalf of **Devcon Enterprises, Inc.** for the repair and improvements to the parking areas for five separate parcels of the **Hill Central Community Co-operative** in **New Haven**.

ON THE BOARDS Campus Mapping Project...

Over the past several years we have surveyed and designed numerous stand-alone projects for **Saint Joseph College of West Hartford**.

This summer we will be compiling and updating all of that previous work into a single comprehensive campus-wide mapping system. For example, shown above is a photograph of recently completed walkway project designed to link the campus core to the residential area. Small projects such as these, as well as any new major improvements, will be integrated in detail into a constantly evolving system.

The new system will provide the college administration with a useful component for their long-range planning efforts and the facilities staff with a flexible data base and management tool.
