

After Hours...

Seminars in the Planning Stages

In January, ALTA/ACSM will be rolling out "the most comprehensive revisions to their survey standards since 1966." As if on cue, Meehan & Goodin is preparing a "pizza and soda pop" lunchtime seminar to help our clients stay up to speed. Call Richard Meehan or Bob Dahn to set one up in your office.

In April, we will be participating with the Connecticut Department of Environmental Protection, among others, in presenting several seminars on the preparation of Environmental Land Use Restrictions (ELURs).

Stay tuned for more details.

Year End Reflections...

As the year draws to a close, we would like to thank you, our clients, for providing us with the opportunity to work with you. It has certainly been a challenging year for us all, but we remain optimistic that so long as we continue to work together, better times are nigh.

One of our "belt tightening" measures was the suspension of our quarterly newsletter this year. We hope this current issue will bring you up to date.

We look forward to new opportunities and new challenges in the year ahead.

See you in 2011!

How Can We Help You Today?

- Site Planning
- Civil Engineering
- Land Surveying
- Permitting

- ◆ Richard Meehan, PLS
- ◆ E. Russell Johnston III, PE
- ◆ Robert E. Dahn, PLS

Call us to see how we can assist you on your next project. (860) 643-2520

Open for Business... Building Conversion

A vacant 26000 SF building in Farmington has been expanded and converted to accommodate the needs of its new owner. To meet the additional parking needs, an adjacent parcel was added. Meehan & Goodin provided surveying and site engineering for all phases of this project from feasibility studies through record drawing preparation.

Under Construction... Cheney Dye House Conversion

Work is progressing on the conversion of the historic Cheney Mills Dye House in Manchester into affordable apartments. A "topping off" ceremony was held in September and occupancy is anticipated for the summer of 2011. Meehan & Goodin provided land surveying and site engineering for this interesting and historic project.

Balancing Act... Smoking Shelter

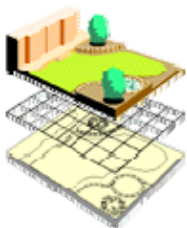

Balancing the needs of both smokers and non-smokers can be difficult for a business. This one in Southington opted to provide an exterior smoking shelter with a paved walkway for access. Meehan & Goodin provided site engineering services including drainage and erosion control measures.

Open for Business... Expanded Parking

Meehan & Goodin provided surveying, site engineering and permitting for the creation of additional parking for the Restaurant Depot in Orange. Because customers need to roll oversized shopping carts to their vehicles, the entire lot and walkway system was designed with minimal curbing and slopes.

Land Use Development Seminars...

We offer free seminars on land use evaluation, development and planning, as well as on the latest survey standards and codes.

Call Richard Meehan for more information about how to set up a seminar for your group at your location.
