**After Hours...**  
Natural Parterre

Richard Meehan and Kevin Nelson spent an enjoyable day assisting artist Bob Chaplin in the precise layout of his proposed Natural Parterre at the Hillstead Museum in Farmington. The Parterre (French "on the ground") will be a 5120 SF lattice of mowed walkways surrounding untouched interior parcels which will be allowed to grow wild.

**Year End Reflections...**

As this year draws to a close, we wish to once again thank you, our clients, for providing us with the opportunity to work with and for you. While the year has had its' challenges, we can safely say that it was better than the year before and now 2019 looks even brighter.

We look forward to new opportunities and new challenges in the year ahead.

See you in 2019!

## Award of Merit... Capitol Lofts Apartments

The Capitol Lofts apartments project earned an Award of Merit for adaptive use from the Connecticut Trust for Historic Preservation. Meehan & Goodin was part of the award winning project team, providing land surveying and site engineering services. Located at 390 Capitol Avenue, Hartford, the building once contained the Pratt & Whitney Machine Shop among it's former occupants.

## Open for Business... Building Expansion

When Simoniz USA wanted to expand a building at their headquarters in Bolton, they turned to Meehan & Goodin for land surveying, site engineering and land use permitting.

## Project Team Award... Litchfield Courthouse

The Litchfield Judicial District Courthouse project was selected the first-place winner in the 2018 Project Team Awards from the Connecticut Building Congress in the New Construction category and was further selected as the "Project Team of the Year". Meehan & Goodin was part of the award winning project team, providing boundary and topographic surveying services.

## Walk to Work Survey Updates

Continuing a long relationship with the Community Child Guidance Clinic, Meehan & Goodin has prepared an updated boundary and topographic survey in conjunction with a planned expansion. Located only two lots from our office building, this is one project site that our crew could walk to.
